

## **USING JAVASCRIPT IN A WEB PAGE**

Card 4 of 9
I'm Learning: Javascript

Insert the following code inside the <div> tag, just before the </div> tag. Identify what changed.

```
<script>
    document.write("This year is " +new Date().getFullYear());
</script>
```

Insert the same code in step 3 after the <div> tag. Can you identify the difference between the two steps?

**Hint:** You used a script inside the **<div>** tag and another script in the **<body>** tag.

Remove the script code you've made in step 3 and 4 as we won't be needing it anymore.

## **Fun fact!**

2.4 of the 7 billion people on the planet use the Internet. Over 8.7 billion machines are currently connected to the Internet.
