CoderDojo

1 Make sure you have a text editor installed (Atom, Notepad++ or Sublime Text). If you need help, ask a mentor to install it for you. After installing, open your text editor.

2 Download the zip file from **kata.coderdojo.com/Beginner_Javascript_Sushi**.

3 Unzip the compressed folder and move it to your documents folder.

4 **Open** the **"Beginner-Javascript-Sushi"** folder and make sure it has the same files as the screen below.
